

COMPETITION BRIEF

Golden Alpine Holidays (GAH), a remote helicopter accessed ski touring and hiking operation is seeking design concepts + creative ideas from students & professionals to address the challenges surrounding replacing our old lodge in the remote Esplanade mountain range of British Columbia

GAH is hungry for inspirational ideas to facilitate a sustainable backcountry lodge. The remote nature of Sunrise Lodge poses unique and demanding constraints, which will challenge participants to submit a design that can not only withstand the elements, but act as a fully functional lodge for clients in both summer and winter environments.

DETAILS
